#ARNECwebinars

ARNEC
Asia-Pacific Regional Network
for Early Childhood

ARNEC holds webinars to connect the ECD community in the Asia-Pacific region and beyond on advocacies for early childhood development

23 September 2020
6:00-7:00PM, Singapore time

What IDELA is all about

The International Development and Early Learning Assessment (IDELA) is a powerful tool for measuring early childhood development. More than 100 partners in various countries use IDELA, creating a wealth of global data.

The Data Explorer allows public access to IDELA data through dynamic visuals that bring child and caregiver information to life. The Data Explorer empowers individuals, teams and organizations to make better data-driven decisions in early childhood development.

AN INTRODUCTION TO THE IDELA DATA EXPLORER

The Data Explorer offers public access to dynamic visualizations, empowering teams to make data-driven decisions.

IDELA   Save the Children

Key points

Frannie Noble, Save the Children USA

IDELA is a global tool used to assess a group of children's early learning and development along four domains: motor development, emergent literacy, emergent numeracy, and social-emotional development. It is not used for direct child assessment for developmental screening; rather it is used to describe a population or community of young children, particularly 3-6 years old.

Lela Chakhaia, Save the Children USA

IDELA Data Explorer provides visual information on young children and caregivers from partners all over the world. Partners use IDELA and share the data with us as part of a global good to inform ECD decisions for policy and programs.

moving forward

1. Organisations and individuals can use the IDELA toolkit; they need to sign an MOU; more info at https://idela-network.org

2. Use of partner's data needs consent; Save the Children USA can help facilitate this between the requesting party and partner/s

3. Save the Children to check if IDELA can be adapted for children with disabilities

Visit the ARNEC website for the recording of this webinar and a copy of the presentation.

LAUNCH OF THE

IDELA DATA EXPLORER

IDELA
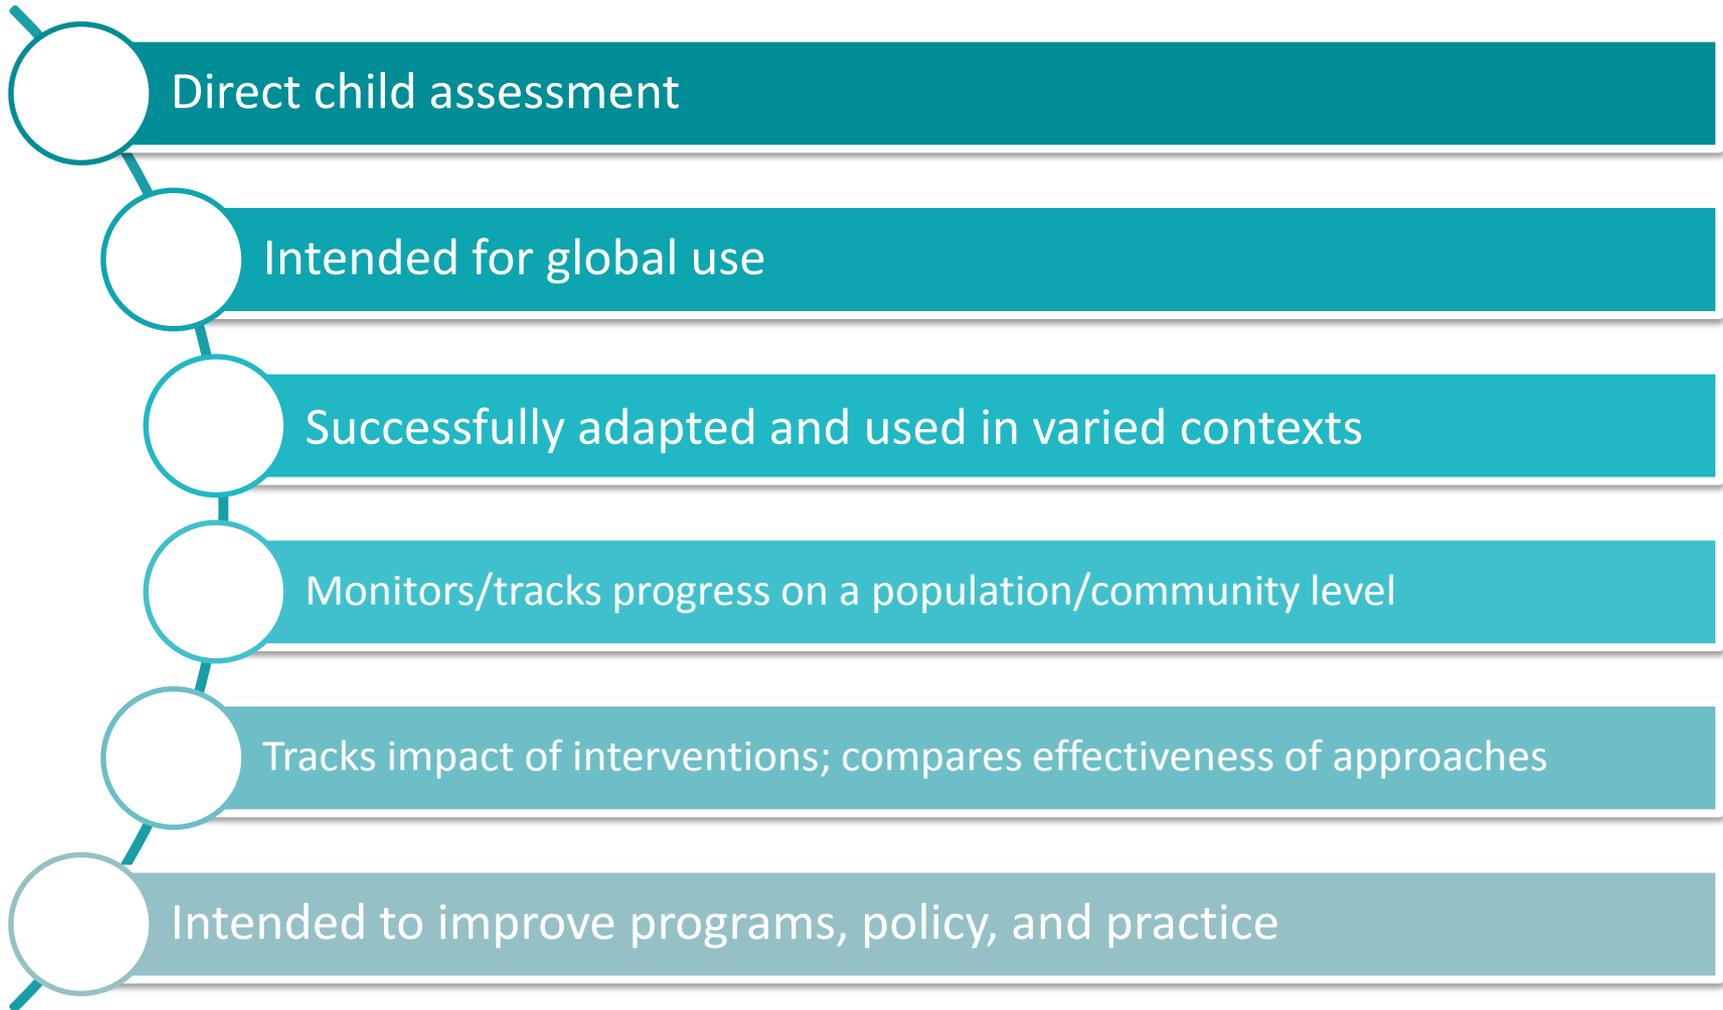

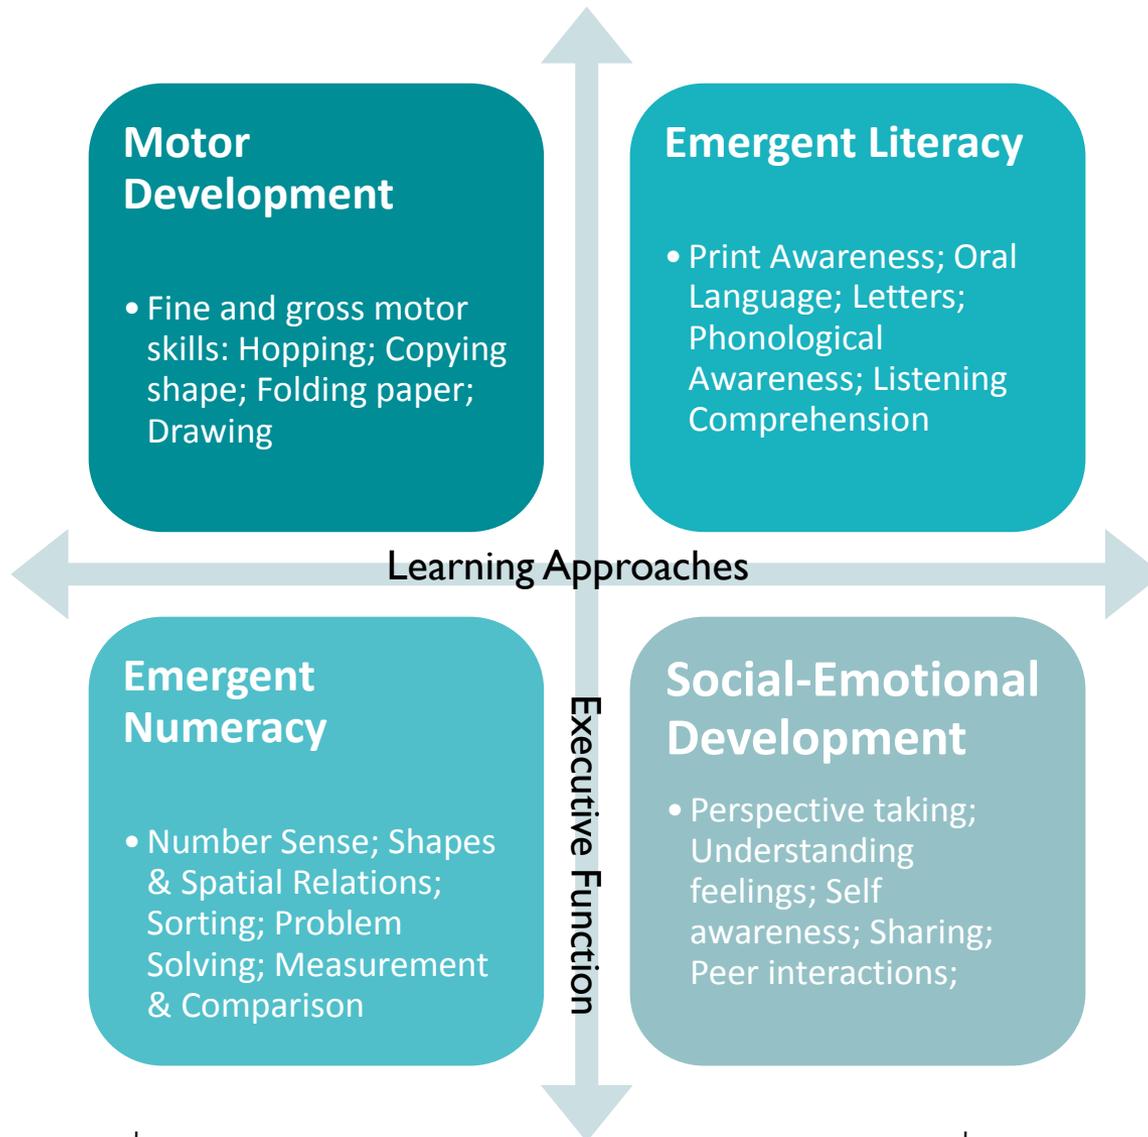

Save the Children®

AGENDA

I.   Introduction to IDELA

II. Welcome to the IDELA Data Explorer!

III. How peers are using the Data Explorer

IV. Q&A

What is IDELA?

- Direct child assessment
- Intended for global use
- Successfully adapted and used in varied contexts
- Monitors/tracks progress on a population/community level
- Tracks impact of interventions; compares effectiveness of approaches
- Intended to improve programs, policy, and practice

Save the Children

What does IDELA measure?

Motor Development

- Fine and gross motor skills: Hopping; Copying shape; Folding paper; Drawing

Emergent Literacy

- Print Awareness; Oral Language; Letters; Phonological Awareness; Listening Comprehension

Learning Approaches

Executive Function

Emergent Numeracy

- Number Sense; Shapes & Spatial Relations; Sorting; Problem Solving; Measurement & Comparison

Social-Emotional Development

- Perspective taking; Understanding feelings; Self awareness; Sharing; Peer interactions;

Save the Children

4

What is IDELA Not?

High stakes school readiness test

Individual child diagnostic assessment

Formative assessment

Ready for any use; off the shelf instrument

How Partners Use IDELA

A TOUR OF THE
IDELA DATA EXPLORER

- Make access to data **more equitable**

- **Support advocacy efforts** in favor of increased funding towards ECD

- **Demystify data** through an intuitive platform

The Data Explorer is fighting against a very narrow scope of expertise in these spaces and supporting the creation of a more representative, more effective, evidenced based community of practice for ECD.

- Kim Foulds, Sesame Workshop

Your turn!

1
